open to think

SLOW DOWN,
THINK CREATIVELY, AND
MAKE BETTER DECISIONS

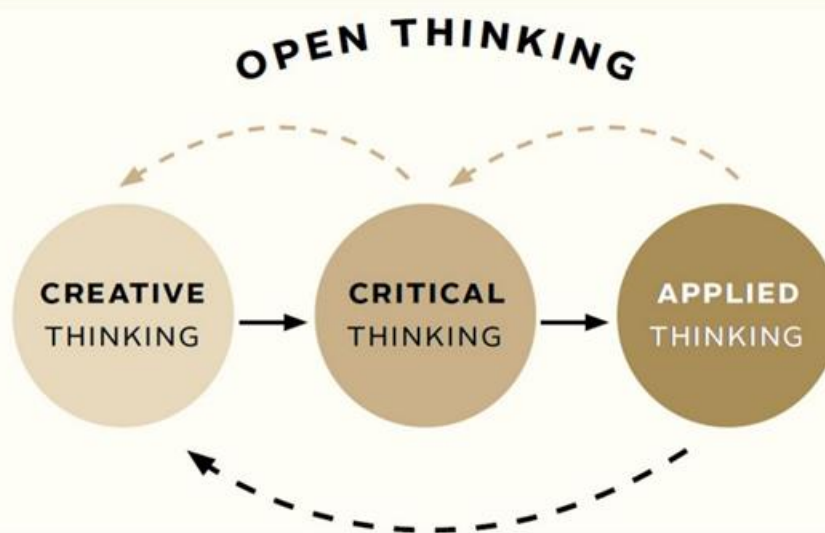

Dream. Decide. Do. Repeat.

We are losing the ability to think. Speed, busyness & multitasking have become weapons against thoughtfulness. Critical thinking and good decision-making have lapsed to a point where we should all be highly concerned.

Our focus is waning, and many of us are personally & professionally suffering. What to do?

“OPEN TO THINK gets down to the basics -- providing a model for how to optimize your thinking to become more creative, more efficient, and more effective.”

Daniel H. Pink, author of WHEN and DRIVE
